Re: Whirlwind Mine 2011 Annual Report, Permit# S/019/065

To Whom It May Concern,

Please see the attached 2011 Annual Report for the Whirlwind Mine, located in Grand County, Utah and Mesa County, Colorado. At this time, the mine portal, workings, and all current surface facilities are located within Colorado. Although permitted, ventilation shafts have not been constructed to date in Utah.

An amendment to the permit was approved in December of 2011 for the addition of mineral property as well as the construction of a meteorological station in Utah. This station is scheduled to be constructed in the Spring of 2012.

I am replacing Zach Rodgers effective today as the primary contact for this permit. Zach had decided to take a position in Michigan to be closer to his extended family. Updated contact information has been provided in revised pages 1 and 2 of the Notice of Intention to Conduct Small Mining Operations form, attached with this submittal (forms MR-REV-SMO and MR-SMO).

Please feel free to contact me at (303) 974-2151 if you need any additional information.

Sincerely,

Ryan Ellis, EIT
Environmental Engineer
